

December 5, 2025

Dear Saint James Families,

As you are aware, yesterday we discovered graffiti with threatening language in one of the boys' bathrooms at school. We took this matter very seriously, and following our school's safety protocols contacted the Manchester Police Department to advise us on potential risk to the health and safety of our students.

Thankfully, the advising officer did not feel there was risk to our students to escalate the matter with authorities. However, out of an abundance of caution, we will be implementing additional safety procedures at our school, which, at this time, we cannot specifically reveal.

School administration remains available to speak with parents/guardians. As always, students are welcome to speak with any of us or their teacher, our assistant principal Mrs. Mitchell, or our social worker Mrs. McAdams.

Thank you again for your continued support.

Sincerely,

Mary Alice Nadaskay
